Applicants: G.J. Bertini et al.

Attorney Docket No.: UTLX114698

Application No.: 09/471,816

Group Art Unit: 2831

Filed: December 22, 1999

Examiner: C. Nguyen

Title: CABLE FLUID INJECTION SLEEVE

AMENDMENT

Seattle, Washington 98101

April 10, 2002

TO THE COMMISSIONER FOR PATENTS:

In response to the Office Action dated October 10, 2001, in the above-identified application, please amend the application as follows:

In the Specification:

Please delete the paragraph beginning on page 11, line 24, and insert the following paragraph therefor:

Referring to FIGURES 10-27, a seventh embodiment of the subject invention is shown, which includes an interior connector portion and an injection fitting portion. More specifically, referring to FIGURE 10, electrical cable sections 120 are shown after being prepared for attachment to the interior connector components of the seventh embodiment of the subject invention. Electrical cable sections 120 each include a central core 122 that is surrounded by insulation 124. Core screen 126 covers insulation 124. Shielding wires 128 cover core screen 126. Oversheath 130, which is optional, covers shielding wires 128. The electrical cable sections 120 are each prepared by removing a portion of insulation 124 to expose central core 122. Also, a portion of core screen 126 is removed to expose insulation 124. Shielding wires 128 are bent away from central core to lie substantially parallel to the longitudinal axis of electrical cable section 120.
